Art Unit: 1646

Claims 1 to 18, 20 to 26, 31 to 33, 35 to 37, 39 to 41, 44 to 46, 48 to 51, 53 to 55 and 57 to 59 are pending in the instant application. As all of the pending claims are allowable 1 to 8, 44 to 46, 9, 48 to 51, 10 to 17, 36, 39 to 41, 18, 53 to 55, 20 to 23, 31 to 33, 35, 37, 57 to 59 and 24 to 26 have been renumbered 1 to 47, respectively.

Applicant is reminded that in order to avoid an abandonment of this application, the drawings must be corrected in accordance with the proposed drawing changes that were submitted by Applicant 22 July of 2002.

The drawings in the instant application do not comply with 37 C.F.R. § 1.821(d), which requires a reference to a particular sequence identifier (SEQ ID NO:) be made in the specification and claims wherever a reference is made to that sequence. M.P.E.P. 2422.02 expressly states that "when a sequence is presented in a drawing, regardless of the format or the manner of presentation of that sequence in the drawing, the sequence must still be included in the Sequence Listing and the sequence identifier ("SEQ ID NO:X") must be used, either in the drawing or in the Brief Description of the Drawings". Applicant submitted an amendment to the specification on 24 February of 2003 correcting this deficiency, and adding a description of the separate drawing panels as numbered in the proposed changes to the drawings submitted on 22 July of 2002. For some inexplicable reason Applicant subsequently amended the specification in a correspondence that was filed on 17 June of 2003 to remove any references to sequence identifiers in the descriptions of Figures 10B, 11B and 12B as well as any description of Figures 10C to 10J, 11C to 11J and 12C to 12J. In responding to this notice of allowability, Applicant is required to amend the instant specification so that it

complies with 37 C.F.R. § 1.821(d) and so that it contains a description of all of the drawings presented therein.
